NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

The consolidated financial statements of Apogee Enterprises, Inc. (we, us, our or the Company) included herein have been prepared in accordance with accounting principles generally accepted in the United States. The consolidated financial statements and notes are presented as permitted by the regulations of the Securities and Exchange Commission (Form 10-Q) and do not contain certain information included in the Company's annual financial statements and notes. The information included in this Form 10-Q should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations and financial statements and notes thereto included in the Company's Form 10-K for the year ended February 28, 2009. The results of operations for the three and nine-month periods ended November 28, 2009 are not necessarily indicative of the results to be expected for the full year.

In the opinion of the Company, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position as of November 28, 2009 and February 28, 2009, and the results of operations for the three and nine-month periods ended November 28, 2009 and November 29, 2008 and cash flows for the nine-month periods ended November 28, 2009 and November 29, 2008.

The Company's fiscal year ends on the Saturday closest to the last day of February. Each interim quarter ends on the Saturday closest to the end of the months of May, August and November.

2. New Accounting Standards

In December 2007, the Financial Accounting Standards Board (FASB) amended U.S. Generally Accepted Accounting Principles (U.S. GAAP) with respect to business combinations. The amendments require assets and liabilities acquired in a business combination, contingent consideration and certain acquired contingencies to be measured at their fair values as of the date of acquisition. The amendments are effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, the Company's fiscal 2010. The Company adopted the amended requirements for business combinations as of the beginning of fiscal 2010, which had no impact on the Company's consolidated results of operations or financial condition as of November 28, 2009; however, future business combinations will be recorded and disclosed in accordance with the amendments.

In December 2007, the FASB issued an amendment to existing standards for accounting and reporting noncontrolling interests. The amendment requires all entities to report minority interests in subsidiaries as equity in the consolidated financial statements, and requires that transactions between entities and noncontrolling interests be treated as equity. The amendment is effective for fiscal years beginning after December 15, 2008, the Company's fiscal year 2010. The Company adopted the amendment as of the beginning of fiscal 2010, which had no impact on the Company's consolidated results of operations or financial condition as presented herein.

In February 2008, the FASB delayed for one year the applicability of the amended fair-value measurement requirements for certain non-financial assets and non-financial liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. The Company adopted the requirements on March 1, 2009. The adoption had no impact on the Company's consolidated results of operations or financial condition as presented herein.

In April 2009, the FASB amended U.S. GAAP to address concerns regarding; the determination of whether a market is not active and a transaction is not orderly; recognition and presentation of other-than-temporary impairments; and interim disclosures of fair values of financial instruments. The Company adopted these amendments in the second quarter of fiscal 2010. The adoption did not have a material impact on the Company's consolidated results of operations or financial condition as presented herein.

In May 2009, the FASB amended U.S. GAAP with respect to subsequent events. These amendments, among other things, established general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The amendments are effective for interim or annual financial periods ending after June 15, 2009, the second quarter of the Company's fiscal 2010, and shall be applied prospectively. The Company adopted the amendments in the second quarter of fiscal 2010 and has evaluated all subsequent events through January 7, 2010, the date these financial statements were issued. As of January 7, 2010, there were no subsequent events which required recognition or disclosure in the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)—(Continued)

In June 2009, the FASB amended U.S. GAAP with respect to the consolidation of variable interest entities (“VIEs”). These amendments, among other things; change existing guidance for determining whether an entity is a VIE; require ongoing reassessments of whether an entity is the primary beneficiary of a VIE; and require enhanced disclosures about an entity’s involvement in a VIE. The amendments are effective for fiscal years beginning after November 15, 2009, the Company’s fiscal 2011. The Company does not expect the adoption will have any impact on its consolidated results of operations or financial condition.

In June 2009, the FASB established the *FASB Accounting Standards Codification*[™] (the “Codification”) as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with U.S. GAAP. All guidance contained in the Codification carries an equal level of authority. The Codification became effective for the Company in the third quarter of fiscal 2010. Adoption of the Codification did not have a material impact on the results of operations or financial condition.

3. Stock-Based Compensation

Stock Incentive Plan

The 2009 Stock Incentive Plan, the 2009 Non-Employee Director Stock Incentive Plan, the 2002 Omnibus Stock Incentive Plan and the 1997 Omnibus Stock Incentive Plan (the Plans) provide for the issuance of 1,400,000, 150,000, 3,400,000 and 2,500,000 shares, respectively, for various forms of stock-based compensation to employees and non-employee directors. Awards under these Plans, either in the form of incentive stock options, nonstatutory options or stock-settled stock appreciation rights (SARs), are granted with an exercise price equal to the fair market value of the Company’s stock at the date of award. Nonvested share awards and nonvested share unit awards are also included in these Plans. Outstanding options issued to employees generally vested over a four-year period, outstanding SARs vest over a three-year period and outstanding options issued to non-employee directors vested at the end of six months. Outstanding options and SARs have a 10-year term. Nonvested share awards and nonvested share unit awards generally vest over a two, three or four-year period.

The 2002 Omnibus Stock Incentive Plan was terminated in June 2009 and the 1997 Omnibus Stock Incentive Plan was terminated in January 2006; no new grants may be made under either of these plans, although vesting and exercises of SARs and options, and vesting of nonvested share awards previously granted thereunder will still occur in accordance with the terms of the various grants.

Total stock-based compensation expense included in the results of operations for the nine months ended November 28, 2009 and November 29, 2008, was \$3.1 million and \$2.1 million, respectively. At November 28, 2009, there was \$1.1 million of total unrecognized compensation cost related to SAR awards, which is expected to be recognized over a weighted average period of approximately 12 months.

Cash proceeds from the exercise of stock options were \$0.5 million and \$0.7 million for the nine months ended November 28, 2009 and November 29, 2008, respectively.

There were no options or SARs issued in the first nine months of fiscal 2010. The weighted average fair value per option or SAR at the date of grant for those granted in fiscal 2009 was \$7.37. The aggregate intrinsic value of these securities (the amount by which the stock price on the date of exercise exceeded the stock price of the award on the date of grant) exercised during the nine months ended November 28, 2009 and November 29, 2008 was \$0.4 million and \$1.7 million, respectively.

The fair value of each award grant is estimated on the date of grant using the Black-Scholes option-pricing model, with the following weighted-average assumptions used for grants through the first nine months of fiscal 2009.

	Nine months ended November 29, 2008
Dividend yield	1.3%
Expected volatility	41.9%
Risk-free interest rate	3.2%
Expected lives	4.5 years

The expected stock price volatility is based on historical experience. The risk-free interest rate is based on the U.S. Treasury Strip rate for instruments having a term consistent with the expected life of the Company’s stock options. The expected life, the average time an option grant is outstanding, and forfeiture rates are estimated based on historical experience.

Exercisable at Nov. 28, 2009	<u>1,346,129</u>	<u>\$ 16.73</u>	<u>5.5 years</u>	<u>\$1,028,910</u>

Partnership Plan

The Amended and Restated 1987 Partnership Plan (the Partnership Plan), a plan designed to increase the ownership of Apogee stock by key employees, allowed participants selected by the Compensation Committee of the Board of Directors to defer earned incentive compensation through the purchase of Apogee common stock. The purchased stock was then matched by an equal award of nonvested shares, which vested over a predetermined period. This program was eliminated for fiscal 2006 and beyond, although vesting of nonvested shares will still occur according to the vesting period of the grants made prior to fiscal 2006.

Executive Compensation Program

In fiscal 2006, the Company implemented an executive compensation program to provide for a greater portion of total compensation to be delivered to key employees selected by the Compensation Committee of the Board of Directors through long-term incentives using performance shares, SARs and nonvested shares. Performance shares have been issued at the beginning of each fiscal year in the form of nonvested share awards. Starting in fiscal 2010, the Company issued performance shares in the form of nonvested share unit awards, which give the recipient the right to receive shares earned at the vesting date. The number of shares or share units issued at grant is equal to the target number of performance shares and allows for the right to receive an additional number of, or less, shares based on meeting pre-determined Company three-year performance goals.

The following table summarizes the nonvested share award transactions, including performance shares and performance share units, under the Plans and the Company's Partnership Plan for the nine months ended November 28, 2009:

	<u>Nonvested Shares and Units</u>	
	<u>Number of Shares and Units</u>	<u>Weighted Average Grant Date Fair Value</u>

Canceled	(711)	18.99
Nonvested at November 28, 2009**	<u>900,937</u>	<u>\$ 16.10</u>

* Includes 196,957 performance share units granted for the fiscal 2010-2012 performance period at target levels. It also includes 36,200 additional shares granted for the fiscal 2007-2009 performance period that immediately vested.

** Includes a total of 460,853 performance shares and performance share units granted and outstanding at target level for fiscal 2008-2010, 2009-2011 and 2010-2012.

At November 28, 2009, there was \$5.0 million of total unrecognized compensation cost related to nonvested share and performance share unit awards, which is expected to be recognized over a weighted average period of approximately 23 months. The total fair value of shares vested during the current period was \$3.3 million.

6. Equity Investment

In fiscal 2001, the Company and PPG Industries, Inc. (PPG) combined their U.S. automotive replacement glass distribution businesses into a joint venture, PPG Auto Glass, LLC (PPG Auto Glass), of which the Company had a 34 percent interest. During the third quarter of fiscal 2009, in connection with PPG's sale of its automotive replacement glass businesses, Apogee exercised its right to sell its minority interest in the PPG Auto Glass joint venture, resulting in cash proceeds of \$27.1 million and a pretax gain on sale of approximately \$2.0 million.

7. Financial Assets

On March 2, 2008, the Company adopted the new accounting standard that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The hierarchy prioritizes the inputs into three broad levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Cash equivalents

Cash equivalents include highly liquid investments with an original maturity of three months or less, and consist primarily of money market funds. The cash equivalents are stated at cost, which approximates fair value.

Short-term investments

The Company has short-term investments of \$25.6 million as of November 28, 2009, consisting of variable rate demand note (VRDN) securities, commercial paper, municipal bonds and U.S. Treasury Bills. The Company's VRDN investments are of high credit quality and secured by direct-pay letters of credit from major financial institutions. These investments have variable rates tied to short-term interest rates. Interest rates are reset weekly and these VRDN securities can be tendered for sale upon notice (every seven days) to the trustee. Although the Company's VRDN securities are issued and rated as long-term securities (with maturities ranging from 2025 through 2052), they are priced and traded as short-term instruments. The Company classifies these short-term investments as "available-for-sale." The VRDN securities, commercial paper and municipal bonds are carried at fair market value based on prices from recent trades of similar securities. The U.S. Treasury Bills are carried at fair market value.

Marketable securities available for sale

The Company has \$23.1 million of marketable securities available for sale, \$16.7 million of which are held by the Company's wholly owned insurance subsidiary, Prism Assurance, Ltd. (Prism). Prism insures a portion of the Company's workers' compensation, general liability and automobile liability risks using reinsurance agreements to meet statutory requirements. The reinsurance carrier requires Prism to maintain fixed-maturity investments, which are generally high-quality municipal bonds, for the purpose of providing collateral for Prism's obligations under the reinsurance agreement. All of the Company's fixed maturity investments are classified as "available-for-sale" and are carried at fair value and are reported as marketable securities available for sale in the consolidated balance sheet. Unrealized gains and losses are reported in accumulated other comprehensive income (loss), net of income taxes, until the investments are sold or upon impairment. These investments are carried at fair value based on prices from recent trades of similar securities.

In accordance with U.S. GAAP requirements, the Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses arising from increased interest rates indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects such recoveries to occur prior to the contractual maturities.

The following table presents the length of time that available for sale securities were in continuous unrealized loss positions, but were not deemed to be other than temporarily impaired, as of November 28, 2009:

Amortization expense on these identifiable intangible assets was \$2.2 million and \$2.8 million for the nine months ended November 28, 2009 and November 29, 2008, respectively. The amortization expense associated with the debt issue costs is included in interest expense while the remainder is in selling, general and administrative expenses in the consolidated results of operations. At November 28, 2009, the estimated future amortization expense for identifiable intangible assets for the remainder of fiscal 2010 and all of the following four fiscal years is as follows:

<i>(In thousands)</i>	Remainder of Fiscal 2010	Fiscal 2011	Fiscal 2012	Fiscal 2013	Fiscal 2014

9. Long-Term Debt

The Company maintains a \$100.0 million revolving credit facility, which expires in November 2011. No borrowings were outstanding under the facility as of November 28, 2009 or February 28, 2009. The credit facility requires the Company to maintain a minimum level of net worth as defined in the credit facility based on certain quarterly financial calculations. The minimum required net worth computed in accordance with the credit agreement at November 28, 2009 was \$265.9 million, whereas the Company's net worth as defined in the credit facility was \$343.7 million. The credit facility also requires that the Company maintain a debt-to-cash flow ratio of no more than 2.75. This ratio is computed daily, with cash flow computed on a rolling 12-month basis. The Company's ratio was 0.09 at November 28, 2009. If the Company is not in compliance with either of these covenants, the lender may terminate the commitment and/or declare any loan then outstanding to be immediately due and payable. At November 28, 2009, the Company was in compliance with all of the financial covenants of the credit facility. Long-term debt also includes \$8.4 million of industrial development bonds at November 28, 2009 and February 28, 2009 that mature in fiscal years 2021 through 2023.

Interest payments were \$0.7 million and \$2.1 million for the nine-month periods ended November 28, 2009 and November 29, 2008, respectively. As a portion of the total interest expense related to funds borrowed to purchase major facilities, information systems and equipment installations, the Company capitalized a portion of the interest payments and will depreciate them over the lives of the related assets. Capitalized interest for the nine months ended November 29, 2008 was \$0.6 million; no interest was capitalized during the nine months ended November 28, 2009.

10. Employee Benefit Plans

Components of net periodic benefit cost for the Company's Officers' Supplemental Executive Retirement Plan (SERP) and Tubelite, Inc. Hourly Employees' Pension Plan (Tubelite Plan) for the three and nine-month periods ended November 28, 2009 and November 29, 2008, were as follows:

(unaudited)—(Continued)

On October 8, 2008, the Company's Board of Directors adopted an amendment to the SERP providing that no more benefits will accrue to plan participants as of December 31, 2008. Plan participants will continue to earn service for the purpose of becoming vested in the benefits they had accrued as of December 31, 2008.

11. Income Taxes

The Company files income tax returns in the U.S. federal jurisdiction and various U.S. state jurisdictions. The Company is no longer subject to U.S. federal or state and local income tax examinations by tax authorities for years prior to fiscal 2004. The Internal Revenue Service has audited the Company through fiscal 2002. The Company is currently under examination by the IRS for fiscal years 2004 through 2007.

The total gross liability for unrecognized tax benefits at November 28, 2009 and February 28, 2009 was approximately \$16.2 million and \$15.6 million, respectively. The Company records the impact of penalties and interest related to unrecognized tax benefits in income tax expense, which is consistent with past practices. The total liability for unrecognized tax benefits is not expected to change materially during the next 12 months.

12. Discontinued Operations

In several transactions in fiscal years 1998 through 2000, the Company completed the sale of its large-scale domestic curtainwall business, the sale of the Company's detention/security business and its exit from international curtainwall operations. The remaining estimated cash expenditures related to these discontinued operations are recorded as liabilities of discontinued operations, and a majority of the remaining cash expenditures related to discontinued operations is expected to be paid within the next three years. The majority of these liabilities relate to the international curtainwall operations, including bonds outstanding, of which the precise degree of liability related to these matters will not be known until they are settled within the U.K. courts. The reserve for discontinued operations also covers other liability issues, consisting of warranty issues relating to these and other international construction projects.

During the second quarter of fiscal 2010, a favorable resolution of an outstanding lease claim resulted in income from discontinued operations of \$0.3 million.

13. Commitments and Contingent Liabilities

Operating lease commitments. As of November 28, 2009, the Company was obligated under noncancelable operating leases for buildings and equipment. Certain leases provide for increased rentals based upon increases in real estate taxes or operating costs. Future minimum rental payments under noncancelable operating leases are:

<i>(In thousands)</i>	Remainder of Fiscal 2010	Fiscal 2011	Fiscal 2012	Fiscal 2013	Fiscal 2014	Thereafter	Total
	Total minimum payments	\$ 1,690	\$ 5,666	\$ 4,224	\$ 2,981	\$ 2,124	\$ 3,366

Bond commitments. In the ordinary course of business, predominantly in the Company's installation business, the Company is required to provide a surety or performance bond that commits payments to its customers for any non-performance by the Company. At November 28, 2009, \$152.6 million of the Company's backlog was bonded by performance bonds with a face value of \$426.3 million. Performance bonds do not have stated expiration dates, as the Company is released from the bonds upon completion of the contract. The Company has never been required to pay on these performance-based bonds with respect to any of the current portfolio of businesses.

Guarantees and warranties. The Company accrues for warranty and claim costs as a percentage of sales based on historical trends and for specific sales credits as they become known and estimatable. Actual warranty and claim costs are deducted from the accrual when incurred. The Company's warranty and claim accruals are detailed below.

<i>(In thousands)</i>	<u>Nine months ended</u>

Letters of credit. At November 28, 2009, the Company had ongoing letters of credit related to its construction contracts and certain industrial development bonds. The total value of letters of credit under which the Company was obligated as of November 28, 2009 was approximately \$10.2 million. The Company's total availability under its \$100.0 million credit facility is reduced by borrowings under the facility and also by letters of credit issued under the facility. As of November 28, 2009, letters of credit in the amount of \$8.9 million had been issued under the facility.

Purchase obligations. The Company has purchase obligations for raw material commitments and capital expenditures. As of November 28, 2009, these obligations totaled \$3.8 million.

Non-compete agreements. The Company has entered into a number of non-compete and consulting agreements associated with current and former employees. As of November 28, 2009, future payments of \$0.3 million were committed under such agreements.

Litigation. The Company is a party to various legal proceedings incidental to its normal operating activities. In particular, like others in the construction supply industry, the Company's construction supply businesses are routinely involved in various disputes and claims arising out of construction projects, sometimes involving significant monetary damages or product replacement. The Company is subject to litigation arising out of employment practices, workers compensation, general liability and automobile claims. Although it is very difficult to accurately predict the outcome of such proceedings, facts currently available indicate that no such claims will result in losses that would have a material adverse effect on the results of operations or financial condition of the Company.

Due to the varying combinations of individual window systems and curtainwall, the Company has determined that it is impractical to report product and service revenues generated by the Architectural segment by class of product, beyond the segment revenues currently reported.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Forward-Looking Statements**

This discussion contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect our current views with respect to future events and financial performance. The words "believe," "expect," "anticipate," "intend," "estimate," "forecast," "project," "should" and similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All forecasts and projections in this document are "forward-looking statements," and are based on management's current expectations or beliefs of the Company's near-term results, based on current information available pertaining to the Company, including the risk factors noted under Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2009. From time to time, we may also provide oral and written forward-looking statements in other materials we release to the public such as press releases, presentations to securities analysts or investors, or other communications by the Company. Any or all of our forward-looking statements in this report and in any public statements we make could be materially different from actual results.

Accordingly, we wish to caution investors that any forward-looking statements made by or on behalf of the Company are subject to uncertainties and other factors that could cause actual results to differ materially from such statements. These uncertainties and other risk factors include, but are not limited to, the risks and uncertainties set forth under Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

We wish to caution investors that other factors might in the future prove to be important in affecting the Company's results of operations. New factors emerge from time to time; it is not possible for management to predict all such factors, nor can it assess the impact of each such factor on the business or the extent to which any factor, or a combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

We are a leader in certain technologies involving the design and development of value-added glass products, services and systems. The Company is comprised of two segments: Architectural Products and Services (Architectural) and Large-Scale Optical (LSO). Our Architectural segment companies design, engineer, fabricate, install, maintain and renovate the walls of glass, windows, storefront and entrances comprising the outside skin of commercial and institutional buildings. Businesses in this segment are: Viracon, Inc., a fabricator of coated, high-performance architectural glass for global markets; Harmon, Inc., one of the largest U.S. full-service building glass installation, maintenance and renovation companies; Wausau Window and Wall Systems, a manufacturer of custom aluminum window systems and curtainwall for the North American commercial construction market; Linetec, a paint and anodizing finisher of architectural aluminum and PVC shutters for U.S. markets; and Tubelite, Inc, a fabricator of

Highlights of Third Quarter and First Nine Months of Fiscal 2010 Compared to Third Quarter and First Nine Months of Fiscal 2009

- Consolidated net sales decreased \$60.6 million, or 25.2 percent, during the third quarter ended November 28, 2009 compared to the prior-year period, and decreased \$175.7 million, or 24.3 percent, during the nine-month period. The architectural glass and installation businesses were the primary drivers of the decrease in net sales for both the quarter and year-to-date periods, consistent with the decline in the commercial construction market, which continues to be impacted by tight commercial real estate credit and low employment levels.
- Gross profit as a percent of sales for the quarter ended November 28, 2009 increased 1.9 percentage points to 24.8 percent from 22.9 percent in the prior-year period. For the nine-month period, gross profit as a percent of sales was 24.5 percent, an increase of 3.4 percentage points over the prior-year period. The increase in gross margin for both the third quarter and the nine-month period was primarily due to improvements in margins in the installation and window businesses as a result of project mix and execution of work that was largely bid in stronger markets. The margin improvement also reflected a positive product mix in the large-scale optical segment, as well as cost management and productivity improvements throughout the Company, partially offset by the impact of fixed costs on lower sales. The prior-year quarter and nine-month period gross margins were negatively impacted by operational challenges in our architectural glass business, which led to higher than planned labor costs to overcome production bottlenecks, and project write-downs in our installation business.
- Selling, general and administrative (SG&A) expenses for the third quarter increased as a percent of net sales to 15.9 percent from 12.6 percent in the prior-year period, but declined by \$1.8 million. For the nine-month period, SG&A expenses increased to 16.2 percent of net sales compared to 12.8 percent in the prior-year period, but declined by \$3.4 million. The decrease in spending for both the quarter and year-to-date periods relates to lower sales and marketing expenses; lower spending on travel and consulting as we focus on cost management; and reduced salaries and employee-related expenses as a result of headcount reductions. These items were partially offset by a year-over-year increase in bonus and long-term incentive expenses. The prior year was impacted by lower projected payouts of stock-based incentives as a result of reducing our outlook for future years. The increase as a percent of sales was largely due to our inability to leverage expenses over a lower level of sales dollars.

Table of Contents

- Interest expense decreased \$0.3 million in the third quarter of fiscal 2010 from the prior-year period and \$0.8 million in the nine-month period due to reduced debt levels and lower interest rates.
- During the third quarter of fiscal 2009 and in connection with PPG's sale of its automotive replacement glass businesses, we exercised our right to sell our minority interest in the PPG Auto Glass joint venture, resulting in a pre-tax gain on sale of approximately \$2.0 million. As a result, we had no impact from the joint venture in the current-year quarter or year-to-date period. During fiscal 2009, the joint venture reported no income in the third quarter and a loss of \$0.1 million in the nine-month period.
- The effective tax rate for continuing operations for the third quarter was 33.7 percent compared to 32.9 percent in the prior-year period. The prior-year was favorably impacted by research and development tax credits taken during the third quarter. For the year-to-date period, the tax rate for continuing operations was 32.7 percent compared to 34.5 percent in the prior year. The decrease in the effective tax rate for the nine-month period was primarily due to a reduction of reserve increases in the current fiscal year as compared to the previous fiscal year as a result of a change in estimate for previous tax positions taken.

Due to the varying combinations of individual window systems and curtainwall, the Company has determined that it is impractical to report product and service revenues generated by the Architectural segment by class of product, beyond the segment revenues currently reported.

Architectural Products and Services (Architectural)

- Third-quarter net sales of \$158.2 million decreased 27.8 percent from the prior-year period, and net sales of \$495.5 million for the nine-month period decreased 25.9 percent from the prior-year period. Both the quarter and year-to-date periods were impacted by difficult market conditions with continued tight commercial real estate credit and low employment levels. In the quarter, we experienced a significant decline in architectural glass volume and a reduction in pricing as the availability of higher-priced, large projects has diminished at a faster rate than the rest of the market decline. These market conditions impacted the architectural glass business to a greater extent than the rest of the businesses in this segment.
- Operating income of \$9.6 million in the current quarter was down 51.1 percent from the prior-year period, and operating margins decreased 2.9 percentage points, to 6.1 percent from 9.0 percent in the prior-year period. On a year-to-date basis, operating income of \$35.2 million was down 29.1 percent from the prior-year period, and operating margins decreased 0.3 percentage points to 7.1 percent from 7.4 percent in the prior-year period. Operating margin was down due to the impact of lower sales levels on the fixed cost base and a declining mix of work that was bid in stronger markets. These items were partially offset by productivity improvements, and ongoing cost-cutting measures at all businesses within the segment. The prior-year quarter and nine-month period gross margins were negatively impacted by operational challenges in our architectural glass business, which led to higher than planned labor costs to overcome production bottlenecks, and project write-downs in our installation business.
- Architectural backlog at November 28, 2009 decreased to \$246.4 million from \$373.2 million in the prior-year period and from \$295.0 million reported at the end of second quarter. Slow bid-to-award timing is impacting

[Table of Contents](#)

backlog. While bidding activity remains steady, there has been a decline in average project values. Reduced lead times for smaller architectural glass and standard window projects, as well as the quick turns required of many of the international jobs, are resulting in a higher proportion of book and bill work, which does not get reflected in backlog. We expect approximately \$95 million of this backlog to flow during the remainder of fiscal 2010.

Large-Scale Optical Technologies (LSO)

- Third quarter revenues were \$21.6 million, up slightly over prior-year period revenues of \$21.3 million. For the nine months ended November 28, 2009, revenues were \$52.6 million, down 5.1 percent from the prior-year. The increase in the quarter was due to improved mix by converting customers to our best value-added picture framing products on lower volume. Although we continue to convert customers to our value-added picture framing products, the nine-month period was negatively impacted by weak custom picture framing market conditions, which has reduced overall volume.
- Operating income of \$7.4 million in the quarter was up 14.3 percent over the prior-year period and operating margins increased to 34.4 percent compared to 30.4 percent in the prior year. For the nine-month period, operating income of \$13.3 million was flat to the prior year and operating margins increased to 25.2 percent compared to 23.9 percent in the prior year. The increase in operating income and margins during the quarter was as a result of productivity improvements due to leveraging significant investments made in this business over the last two years. The nine-month period increase in operating margins was due to the strong mix of better value-added picture framing products, which was partially offset by the impact of lower volume.

Consolidated Backlog

- At November 28, 2009, our consolidated backlog was \$252.0 million, down 32.7 percent from the prior-year period and down 15.8 percent compared to the \$299.3 million reported at the end of the second quarter.
- The backlog of the Architectural segment represented more than 97 percent of consolidated backlog.
- We view backlog as an important statistic in evaluating the level of sales activity and short-term sales trends in our business. However, as backlog is only one indicator, and is not an effective indicator of the ultimate profitability of our sales, we do not believe that backlog should be used as the sole indicator of future earnings of the Company.

Discontinued Operations

In several transactions in fiscal years 1998 through 2000, we completed the sale of our large-scale domestic curtainwall business, the sale of our detention/security business and the exit from international curtainwall operations. The remaining estimated cash expenditures related to these discontinued operations are recorded as liabilities of discontinued operations, and a majority of the remaining cash expenditures related to discontinued operations is expected to be paid within the next three years. The majority of these liabilities relate to the international curtainwall operations, including bonds outstanding, of which the precise degree of liability related to these matters will not be known until they are settled within the U.K. courts. The reserve for discontinued operations also covers other liability issues, consisting of warranty issues relating to these and other international construction projects.

During the second quarter of fiscal 2010, a favorable resolution of an outstanding lease claim resulted in income from discontinued operations of \$0.3 million.

Liquidity and Capital Resources

<i>(Cash effect, in thousands)</i>	Nine months ended	
	November 28, 2009	November 29, 2008
Net cash provided by continuing operating activities	\$ 73,865	\$ 71,008
Capital expenditures	(7,682)	(49,460)
Net (purchases) sales of short-term investments and marketable securities	(14,259)	2,374
Net change in borrowings	—	(29,800)

Operating activities. Cash provided by operating activities of continuing operations was \$73.9 million for the first nine months of fiscal 2010, compared to \$71.0 million in the prior-year period, on lower current-year earnings.

Non-cash working capital (current assets, excluding cash and short-term investments, less current liabilities) was \$26.7 million at November 28, 2009, or 3.6 percent of last 12-month sales, our key balance sheet metric. This compares to 4.8 percent at February 28, 2009 and 6.9 percent at November 29, 2008. The improvement over year-end and the prior-year period is largely the result of initiatives to expedite billings and collections. We believe this metric will be negatively impacted through the downturn by current commercial construction market conditions as some customers, general contractors and building owners experience increased liquidity issues.

Table of Contents

Investing Activities. Through the first nine months of fiscal 2010, investing activities used \$21.8 million of cash, compared to \$19.9 million in the same period last year. New capital investments through the first nine months of fiscal 2010 totaled \$7.7 million, compared to \$49.5 million in the prior-year period. Prior-year spending was primarily for productivity improvements and capacity expansions in both operating segments, while in the current year our expenditures have been focused on safety and maintenance projects, as well as quick pay-back productivity improvements. The prior year also included \$27.1 million of proceeds on the sale of our interest in the PPG Auto Glass joint venture. The net position of our investments for the nine-month period resulted in \$14.3 million in net purchases versus \$2.4 million in net sale proceeds in the prior year.

We expect fiscal 2010 capital expenditures to be less than \$15 million, primarily for productivity improvements, maintenance and safety, and new green products. Our factories are modern and have excess capacity given current market conditions; accordingly, we are focusing on productivity improvements and product enhancements, including green product offerings, with minimal use of capital.

We continue to review our portfolio of businesses and their assets in comparison to our internal strategic and performance objectives. As part of this review, we may acquire other businesses, further invest in, fully divest and/or sell parts of our current businesses.

Financing Activities. Total outstanding borrowings remained consistent at \$8.4 million as of November 28, 2009 and February 28, 2009, and consisted solely of industrial development bonds. Total outstanding borrowings at November 29, 2008 were \$28.4 million. Through cash generated from operations, we have reduced outstanding debt compared to the prior-year period. Our debt-to-total-capital ratio was 2.4 percent at November 28, 2009, compared to 2.6 percent at February 28, 2009.

We expect to issue up to approximately \$12 million of recovery zone facility bonds during the fourth quarter of fiscal 2010. Proceeds from the bond issuance will be used to finance the expansion of product offerings at our St. George, Utah location. The bonds will have a term of approximately 20 years and will bear a floating rate of interest similar to the Company's currently outstanding industrial development bonds.

We paid dividends of \$6.8 million and \$6.5 million in the first nine months of fiscal 2010 and 2009, respectively. We expect to continue to make quarterly dividend payments and spend approximately \$9.1 million on dividends during fiscal 2010.

During fiscal 2004, the Board of Directors authorized a share repurchase program of 1,500,000 shares of common stock. The Board of Directors increased this authorization by 750,000 shares in January 2008 and by 1,000,000 in October 2008. We repurchased 535,324 shares in the open market under this program, for a total of \$7.2 million, through February 25, 2006. No share repurchases were made under this plan during fiscal 2007. We repurchased 338,569 shares in the open market during fiscal 2008 for \$5.4 million. During fiscal 2009, we repurchased 1,130,230 shares in the open market for \$14.6 million under the program. There have been no share repurchases during the first nine months of fiscal 2010. Therefore, we have purchased a total of 2,004,123 shares, at a total cost of \$27.3 million, since the inception of this program. We have remaining authority to repurchase 1,245,877 shares under this program, which has no expiration date. We do not expect to repurchase any shares during the remainder of fiscal 2010.

Other Financing Activities. The following summarizes our significant contractual obligations that impact our liquidity as of November 28, 2009:

<i>(In thousands)</i>	Future Cash Payments Due by Fiscal Period						
	2010 Remaining	2011	2012	2013	2014	Thereafter	Total

Industrial revenue bonds	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 8,400	\$ 8,400
Operating leases (undiscounted)	1,690	5,666	4,224	2,981	2,124	3,366	20,051
Purchase obligations	1,702	2,092	—	—	—	—	3,794
Non-compete agreements	207	65	—	—	—	—	272
Total cash obligations	<u>\$ 3,599</u>	<u>\$ 7,823</u>	<u>\$ 4,224</u>	<u>\$ 2,981</u>	<u>\$ 2,124</u>	<u>\$ 11,766</u>	<u>\$ 32,517</u>

We maintain a \$100.0 million revolving credit facility, which expires in November 2011. No borrowings were outstanding as of November 28, 2009. The credit facility requires that we maintain a minimum level of net worth as

Table of Contents

defined in the credit facility based on certain quarterly financial calculations. The minimum required net worth computed in accordance with the credit agreement at November 28, 2009 was \$265.9 million, whereas our net worth as defined in the credit facility was \$343.7 million. The credit facility also requires that we maintain a debt-to-cash flow ratio of no more than 2.75. This ratio is computed daily, with cash flow computed on a rolling 12-month basis. Our ratio was 0.09 at November 28, 2009. If we are not in compliance with either of these covenants, the lender may terminate the commitment and/or declare any loan then outstanding to be immediately due and payable. At November 28, 2009, we were in compliance with all of the financial covenants of the credit facility. Long-term debt also includes \$8.4 million of industrial development bonds that mature in fiscal years 2021 through 2023.

From time to time, we acquire the use of certain assets, such as warehouses, automobiles, forklifts, vehicles, office equipment, hardware, software and some manufacturing equipment through operating leases. Many of these operating leases have termination penalties. However, because the assets are used in the conduct of our business operations, it is unlikely that any significant portion of these operating leases would be terminated prior to the normal expiration of their lease terms. Therefore, we consider the risk related to termination penalties to be minimal.

We have purchase obligations for raw material commitments and capital expenditures. As of November 28, 2009, these obligations totaled \$3.8 million.

The other obligations relate to non-compete and consulting agreements with current and former employees.

We expect to make contributions of \$0.5 million to our defined benefit pension plans in fiscal 2010. The fiscal 2010 expected contributions will equal or exceed our minimum funding requirements.

As of November 28, 2009, we had \$16.2 million and \$2.2 million of unrecognized tax benefits and environmental liabilities, respectively. We are unable to reasonably estimate in which future periods these amounts will ultimately be settled.

At November 28, 2009, we had ongoing letters of credit related to construction contracts and certain industrial development bonds. The letters of credit by expiration period were as follows at November 28, 2009:

<i>(In thousands)</i>	Amount of Commitment Expiration Per Fiscal Period						
	2010 Remaining	2011	2012	2013	2014	Thereafter	Total
Standby letters of credit	\$ 1,497	\$—	\$—	\$—	\$—	\$ 8,653	\$10,150

In addition to the above standby letters of credit, which were predominantly issued for our industrial development bonds, we are required, in the ordinary course of business, to provide a surety or performance bond that commits payments to our customers for any non-performance by us. At November 28, 2009, \$152.6 million of our backlog was bonded by performance bonds with a face value of \$426.3 million. Performance bonds do not have stated expiration dates, as we are released from the bonds upon completion of the contract. We have never been required to pay on these performance-based bonds with respect to any of our current portfolio of businesses.

We self-insure our third-party product liability coverages. As a result, a material construction project rework event would have a material adverse effect on our operating results.

For fiscal 2010, we believe that current cash on hand, cash generated from operating activities and available capacity under our committed revolving credit facility should be adequate to fund our working capital requirements, planned capital expenditures and dividend payments. We have total cash and short-term investments of \$83.1 million at November 28, 2009. We believe that this will provide us with the financial strength to work through the ongoing weak market conditions and to focus on our growth strategy for the recovery.

Outlook

We continue to face an unprecedented level of uncertainty. The following statements are based on our current expectations for full-year fiscal 2010 results. These statements are forward-looking, and actual results may differ materially.

- Overall revenues for the year are expected to be down 22 to 24 percent compared to fiscal 2009.
- Operating margins are expected to be 6.3 to 7.0 percent for the year.
- Full-year capital expenditures are projected to be less than \$15 million.

Related Party Transactions

No material changes have occurred in the disclosure with respect to our related party transactions set forth in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

Critical Accounting Policies

No material changes have occurred in the disclosure of our critical accounting policies set forth in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

No material changes have occurred to the disclosures of quantitative and qualitative market risk set forth in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

Item 4: Controls and Procedures

- a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report (the Evaluation Date), we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in applicable rules and forms, and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.
- b) Changes in internal controls: There was no change in the Company's internal control over financial reporting that occurred during the fiscal quarter ended November 28, 2009, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company has been a party to various legal proceedings incidental to its normal operating activities. In particular, like others in the construction supply industry, the Company's construction supply businesses are routinely involved in various disputes and claims arising out of construction projects, sometimes involving significant monetary damages or product replacement. The Company has also been subject to litigation arising out of employment practices, workers compensation, general liability and automobile claims. Although it is difficult to accurately predict the outcome of such proceedings, facts currently available indicate that no such claims will result in losses that would have a material adverse effect on the results of operations or financial condition of the Company.

Item 1A. Risk Factors

There were no material changes or additions to our risk factors discussed in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.
